

*Volume dedicated to Prof. dr. math. Toader Buhăescu from the
 Department of Mathematics and Informatics, Faculty of Sciences and Environment,
 on the occasion of his 90th birthday*

Volume Editors: Prof. PhD. habil. Antoaneta ENE, Assoc. Prof. PhD. Monica APRODU

SUMMARY

Geometric characterization of V-harmonic maps..... Monica Aprodu	41–45
Delay differential systems. A generalization of the Lotka-Volterra model Constantin Bendrea, Adrian Stan	46–49
Numerical method for approximating a function..... Stefanut Ciochina	50–54
Interactive teaching methods Adrian Gheorghita	55–63
The connection between the stochastic series and the time depending phenomena..... Nina N. Cazacu	64–76
Novel foods - overview, legislation and methods of analysis Ioana Mădălina Georgescu, Cătălin Nicolae Negreanu, Ovidiu Valentin Zvorișteanu, Carmen Daniela Petcu, Emilia Ciobotaru Pîrvu	77–83
